

ATTENTION!

We are using a new tool this year in the application process.....but

You can go back into the application as many times as you want **from the same computer** until the application deadline of March 13, 2015 at 5:00 p.m.

The following pages will tell you how to print a copy for your records

You can print sections of the application as you complete them; unfortunately, you cannot print the entire application at one time. You will need to go back through each section and print off the application by using the **print option** located on the toolbar. Moving back and forth between sections is easy using the “Next” and “Prev” buttons.

This is useful, AND HIGHLY RECOMMENDED, if you want to maintain a copy of your completed application – or if you want someone else to read through what you entered to check for accuracy.

This is how it looks in print preview.

Community Services EAF Competitive Application FY 16 Survey
